What is the key to adopt our platform using in the school

Are there any barriers to its use in schools?

What classes are in demand?

- **Interview with Local Government (or who are trying to revitalize the local region ) (Three organizations):**

Necessary functions

Confirming ease of use and difficulties of use for local government-related people.

- **Interview with Payment solution provider (Two or Three providers)**

To determine how to integrate the credit card payment service

The name of the organisation interviewed and the initials of the person in charge are given, and the recorded interview is summarised and can be verified in the report.

## **[2.Research on what is needed for the project from a technical perspective]**

- **From the interview above, we'll determine how to integrate the credit card payment service and how to allow students join the class.**

- **Write down the elements required for this platform update.**

## **[3.On-boarding work of teachers in the Cardano ecosystem]**

- Making List of the teachers candidates and organizations that can introduce teachers

This list includes their information:

Individual: handle name or real name , Twitter Account, jobs, fields

Organization: Name of the organization

- Contact with them and ask whether they can have course or not

## **[4.Preparation of a detailed action plan for this project]**

	<b>Summarizing on 1-4 and making a detailed action plan for Sales, Development and onboarding teachers.</b>
