Making detailed documentation on where updates and developments have been renewed.

【Marketing】

・The number of onboarded people as teachers and students

・The number of organizations which have partnership with this platform and the name will be provided

・User acceptance test results (Over 20people including students / teachers)

We'll onboard five schools and five municipalities over the six-month project period".

We'll make the google form to hear about our platform and report the results and sammerise them.

(Survey on ease of use, satisfaction with classes, desired improvements, how much you would recommend it to others, what kind of content you would like to see more of)

【Overall】

・A written statement outlining the future challenges and next steps that the project would like to address.

For close-out video it has limitation of the time so, we'll record the information of our platform and the marketing results

(Follow up using the closing-out report document)

Evidence of milestone completion	Evidence of milestone closure • Community members must be able to see the project close-out report. • Project close-out video shared on YouTube. These evidence includes acceptance criteria And also we'll provide the User guide / How to use this platform videos and these links will be included in Close out report.
